SEWPBPD Biennial WPDES Report – March 31, 2021 to March 31, 2023

Catch Basin Inspection Reports and Documents

Where noted, refer to each relevant WPDES Permit at time of each inspection.

- 3/22/2021 Semi Annual Catch Basin Inspection
- 6/3/2021 Semi Annual Catch Basin Inspection
- 3/16/2022 Annual Catch Basin Inspection and record of sediment clean-out.
- Catch Basin Tracking Database

As of 9/1/2021 (effective date of the -04 WPDES Permit) the District has implemented a tracking system (spreadsheet database) to document date of catch basin inspections, sediment depth and date of clean-out. Per the -04 Permit catch basins are to be inspected annually and cleaned out when they are greater than 45% full. Per the -03 Permit catch basins were to be inspected semi-annually and cleaned out when they were greater than 45% full.

The “Miller Park Storm Sewer Structure Inspection” sheets dated 2012 contain the catch basin structure numbers.

Semi Annual Catch Basin Inspection

WPDES Permit No. WI-S049921-3

Date: March 22, 2021

Inspector: Gregg DuBois and Megan Ruemler

Time: 9:30 a.m. – 10:30 a.m.

Weather: 57° F, Sunny

Catch basins were inspected within the parking lots and access roads managed by the SEWPBPD. The parking lots and access roads are street swept and maintained for litter clean up after home Brewers baseball games and during the pre-season. Stencils installed, “Dump no waste drains to river” throughout Park grounds in 2020.

Some lots and access roads are in use for City of Milwaukee Health Department free community testing site for COVID-19.

Visual Observations:

- South Access Road (Frederick Miller Way) – Road is clean of litter and debris. Some water in sumps, no flow noted; no oil/grease sheen or litter noted, and no odors noted.
- North Access Road/East Access Road (Selig Drive) – Road is generally clean of litter and debris (street is swept). No water in sumps; no flow noted; no oil/grease sheen or litter and no odors noted.
- Braves Lot/Stadium Northeast – Catch basins dry, no flow noted, no oil/grease sheen, or odors noted. No litter noted. Lot has not been regularly swept due to no fans present on park grounds.
- Brewers Lot/Stadium Northeast – Parking lot is not in use. Lots have not been regularly swept due to no fans present on park grounds. Catch basins contains some standing water, no flow noted. No oil/grease sheen or odors noted. No litter noted.
- Mathews – Parking lot is clean of debris, no fan use. Catch basins contains some standing water, no flow noted, no oil/grease sheen, or odors noted. No litter noted.
- Spahn/ Freeway North Northeast – Parking lot in use. Lots have not been swept, no fans. Catch basin contains some standing water, no flow noted, no oil/grease sheen, or odors noted. Some litter noted blown from freeway.
- Molitor/Freeway North Northwest – Lots have not been regularly swept due to no fans present on park grounds. Catch basins contains some standing water, no flow noted, no oil/grease sheen noted. Litter only noted at area adjacent to Freeway.
- Uecker/Yount/River East South – Lots have not been regularly swept due to no fans present on park grounds. At Uecker and River East South some standing water in catch basins, no flow noted, no oil/grease sheen, or odors noted. No litter noted. Yount Lot was not inspected due to safety concerns related to COVID-19 testing taking place at the time of inspection.
- Miller/Kuehn/Gantner/Logan /River West – Lots have not been regularly swept due to no fans present on park grounds. Some standing water in some of the sumps in catch basins, some flow noted. No oil/grease sheen, or odors noted. No litter noted. Miller Lot was not inspected due to safety concerns related to COVID-19 testing taking place at the time of inspection.

- Fingers/Money/Cooper/Thomas/ Aaron/ Stadium Northwest – Lots have not been regularly swept due to no fans present on park grounds. Catch basins contain some standing water, no flow noted. No oil/grease sheen or odors noted. Some litter noted.
- **Trash Debris:** The parking lots and ring roads are maintained for cleanliness, managed by the Milwaukee Brewers Baseball Club (MBBC). All of the parking lots and ring roads are power swept after home baseball game. The dumpsters, recycling bins, other waste receptacles are emptied typically within one hour after each home game. The portable toilets are cleaned after every home games. The catch basins and inlets have been maintained due in part to the regular and consistent street sweeping program that has been undertaken at the Park. **Due to COVID-19, no in person games are occurring at this time.**
- **Sediment Build-Up:** Did not note significant sediment build up (45% or greater) in any of the catch basins inspected.

Maintenance Recommendations:

- Access Roads – Continue carrying out the existing street sweeping program as agreed upon with City and MBBC. No new recommendations.
- Parking Lots – Continue carrying out the existing street sweeping program and waste removal (garbage, recyclables, coal). Continue making all waste receptacles available to Park visitors. No new recommendations.
- Please continue to maintain 'No Dumping' Stamps and/or Stencils to catch basins throughout the Miller Park grounds.

Semi Annual Catch Basin Inspection

WPDES Permit No. WI-S049921-3

Date: June 3, 2021

Inspector: Gregg DuBois

Time: 8:30 a.m. – 10:30 a.m.

Weather: 83° F, Partly Sunny

Catch basins were inspected within the parking lots and access roads managed by the SEWPBPD. The parking lots and access roads are street swept and maintained for litter clean up after home Brewers baseball games and during the pre-season. Stencils installed, “Dump no waste drains to river” throughout Park grounds in 2020.

Visual Observations:

- South Access Road (Frederick Miller Way) – Road is clean of litter and debris. Sumps are dry, no flow noted; no oil/grease sheen or litter noted, and no odors noted.
- North Access Road/East Access Road (Selig Drive) – Road is clean of litter and debris. Sumps are dry, no flow noted; no oil/grease sheen or litter and no odors noted.
- Braves Lot/Stadium Northeast – Catch basins dry, no flow noted, no oil/grease sheen, or odors noted. No litter noted.
- Brewers Lot/Stadium Northeast – Catch basin contains some standing water, no flow noted. No oil/grease sheen or odors noted. No litter noted.
- Mathews – Catch basins dry, no flow noted, no oil/grease sheen, or odors noted. No litter noted.
- Spahn/ Freeway North Northeast – Parking lot in use. Catch basins are dry, no flow noted, no oil/grease sheen, or odors noted.
- Molitor/Freeway North Northwest – Catch basins contain some standing water, no flow noted, no oil/grease sheen noted. Litter present from the freeway.
- Uecker/Yount/River East South – Some standing water in some catch basins, no flow noted, no oil/grease sheen, or odors noted. No litter noted.
- Miller/Kuehn/Gantner/Logan /River West – Standing water in some of the sumps in catch basins, no flow noted. No oil/grease sheen, or odors noted. No litter noted.
- Fingers/Money/Cooper/Thomas/ Aaron/ Stadium Northwest – Some catch basins contain standing water, no flow noted. No oil/grease sheen or odors noted.
- **Trash Debris:** The parking lots and ring roads are maintained for cleanliness, managed by the Milwaukee Brewers Baseball Club (MBBC). All of the parking lots and ring roads are power swept after home baseball games. The dumpsters, recycling bins, other waste receptacles are emptied typically within one hour after each home game. The portable toilets are cleaned after every home games. The catch basins and inlets have been maintained due in part to the regular and consistent street sweeping program that has been undertaken at the Park.
- **Sediment Build-Up:** Did not note significant sediment build up (45% or greater) in any of the catch basins inspected.

Maintenance Recommendations:

- Access Roads – Continue carrying out the existing street sweeping program as agreed upon with City and MBBC. No new recommendations.
- Parking Lots – Continue carrying out the existing street sweeping program and waste removal (garbage, recyclables, coal). Continue making all waste receptacles available to Park visitors. No new recommendations.
- Please continue to maintain 'No Dumping' Stamps and/or Stencils to catch basins throughout the Park grounds.

Annual Catch Basin Inspection

WPDES Permit No. WI-S049921-04 (effective 9/1/2021)

Date: March 16, 2022

Inspector(s): Megan Ruemler and Kevin Patterson

Time: 9:40 AM - 12:00 PM

Weather: 42° F, Partly Sunny

Catch basins were inspected within the parking lots and access roads managed by the SEWPBPD.

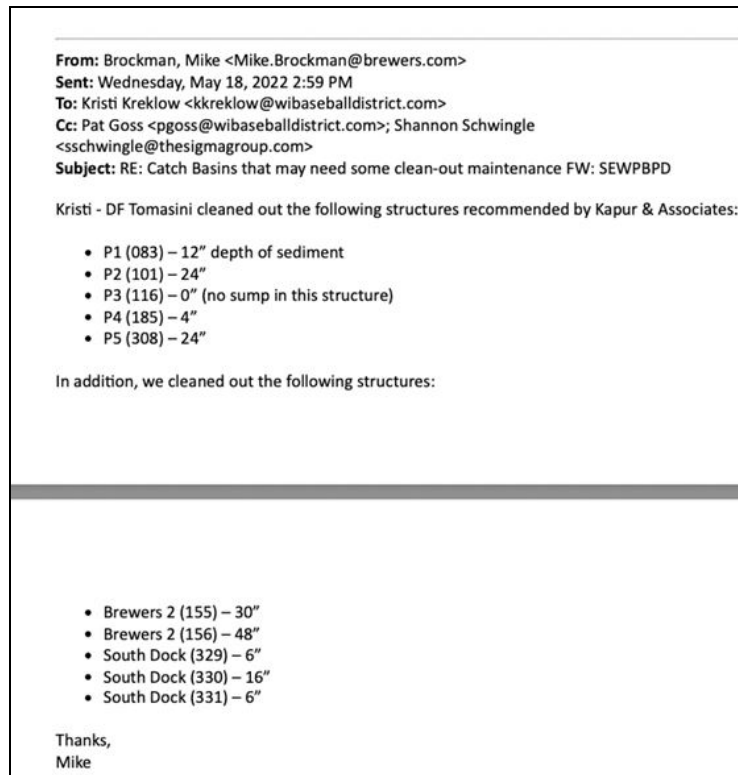

Visual Observations:

- South Access Road (Frederick Miller Way) – Road is clean of litter and debris. Standing water in sumps, some flow noted; no oil/grease sheen or litter noted, and no odors noted. Some debris noted. “Dump no waste drains to river” markers fading.
- North Access Road/East Access Road (Selig Drive) – Road is generally clean of litter and debris (street is swept). Water in sumps; flow noted; no oil/grease sheen or litter and no odors noted. “Dump no waste drains to river” markers fading.
- Braves Lot/Stadium Northeast – Standing water, flow noted, no oil/grease sheen, or odors noted. No litter noted, debris noted. “Dump no waste drains to river” markers fading.
- Brewers Lot/Stadium Northeast – Catch basins contains standing water, some flow noted. No oil/grease sheen or odors noted. Some litter noted, debris noted. “Dump no waste drains to river” markers not fading.
- Mathews – Catch basins contains some standing water, no flow noted, no oil/grease sheen, or odors noted. Some litter noted and leaf debris on grate. “Dump no waste drains to river” markers fading.
- Spahn/ Freeway North Northeast – Catch basin contains some standing water, some flow noted, no oil/grease sheen, or odors noted. Some litter noted, some debris. “Dump no waste drains to river” markers fading.
- Molitor/Freeway North Northwest – Catch basins contains some standing water, flow noted, no oil/grease sheen noted. Some litter noted. “Dump no waste drains to river” markers fading.
- Uecker/Yount/River East South – All lots contained standing water in catch basins. Flow noted in some, no oil/grease sheen, or odors noted. Some litter noted. “Dump no waste drains to river” markers fading.
- Miller/Kuenn/Gantner/Logan /River West – Some standing water in some of the sumps in catch basins, some flow noted. No oil/grease sheen, or odors noted. No litter noted. “Dump no waste drains to river” markers fading.
- Fingers/Money/Cooper/Thomas/ Aaron/ Stadium Northwest – Catch basins contain some standing water with some flow noted. No oil/grease sheen or odors noted. Some litter noted. “Dump no waste drains to river” markers fading.
- **Trash Debris:** The parking lots and ring roads are regularly maintained for cleanliness, managed by the Milwaukee Brewers Baseball Club (MBBC). All the parking lots and ring roads are power swept after home baseball games. The dumpsters, recycling bins, other waste receptacles are emptied after each home game. The portable toilets are cleaned

after every home game. The catch basins and inlets are maintained due in part to the regular and consistent street sweeping program that has been undertaken at the Park.

- **Sediment Build-Up:** Did note sediment build up in some of the catch basins inspected. Catch basins needing clean out have been noted on numbered catch basin map and shared with SEWPBPD 4/18/2022. Appropriate actions were taken for sediment build-up clean out 5/9/2022. Documentation indicating clean-out is as follows:

Maintenance Recommendations:

- Access Roads – Continue carrying out the existing street sweeping program as agreed upon with City and MBBC. No new recommendations.
- Parking Lots – Continue carrying out the existing street sweeping program and waste removal (garbage, recyclables, coal). Continue making all waste receptacles available to Park visitors. No new recommendations.
- Please continue to maintain 'No Dumping' Stamps and/or Stencils to catch basins throughout the Park grounds.

CATCH BASIN TRACKING SYSTEM DATABASE: WPDDES Permit No. WI-S049921-04 effective 9/1/2021. Permit Condition II.F.2.c) Implement a tracking system to document the date each catch basin is inspected, the sediment depth in each catch basin, and date of clean-out.
